

I strongly and emphatically oppose the actions of the Consumer Bankers Association challenging Indiana's no call list. If I need additional services from my bank, I will initiate contact with my bank and ask for help. No need to allow the bank to initiate contact when I am not in need of services. I have been extremely pleased by the effectiveness of Indiana's no call list. Consumers are being well-served in Indiana -- please do not force us to return to the bad old days of constant telephone harassment.
